Some New Church Resources

GOSPEL FOR KIDS APP

The Church has released a new app for kids, called "Gospel for Kids." It consolidates three previous children apps into four segments: Scripture Stories, Coloring Books, Sing Along, and More Activities. The Sing Along section includes hymns, Children's Songbook songs, and other children-friendly gospel music. It also allows kids to customize music videos. The app also includes pre-loaded playlists for each month, which coordinate with Come, Follow Me. This might be a fun way to switch-up your current gospel study routine with your kids!

PIONEERS IN EVERY LAND

The Church has featured some really uplifting stories in a new segment on their website, called "Pioneers in Every Land." The stories feature people from all over the world, and each story is just really unique and tender. You can find these stories at the following link: <https://history.churchofjesuschrist.org/section/pioneers?lang=eng>
